Let me check
what I have to do today.
Okay, I can to this!

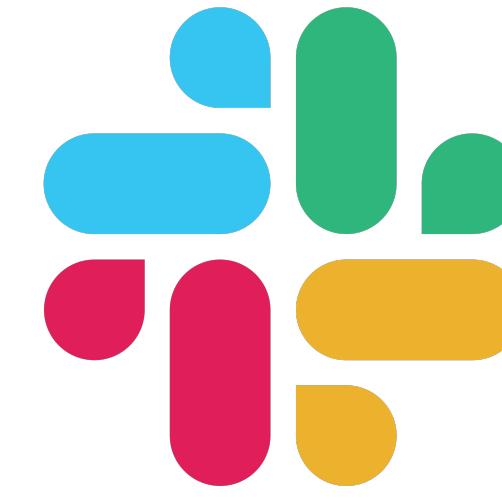

A top-down photograph of a group meeting around a wooden table. Several people's hands are visible, interacting with various electronic devices: laptops, tablets, and smartphones. Some screens display blue interfaces with the text '85.00%'. There are also notebooks, pens, and small potted plants on the table. The scene is set in a modern, casual office environment.

"Oh, bit busy!"

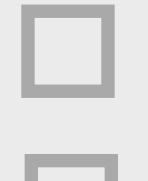

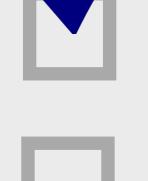

A photograph showing two people from behind, working at a desk in an office environment. They are looking at multiple computer screens displaying code. One person is pointing at the screen of the other. The scene is lit by natural light from a window behind them. A large fan is mounted on the wall above the window.

Code review

TO DO LIST

**"Oh.... No!!!!!!
I even can't find out
where I mentioned!"**

Mention@nzip

Menti@nZip

- Reducing workload by automatically integrated all tools
- Minimizing communication cost by not missing all mentioned tasks

Menti@nZip

Next phase will be...

Dev Spec

- **Azure**
- **SSL + Nginx + Https**
- **Java + Spring Boot**
- **Swagger**

Q&A

Thank you
